

MARMARA  
ÜNİVERSİTESİ

## Atatürk Faculty of Education

### Marmara Üniversitesi Atatürk Eğitim Fakültesi

#### Department of Mathematics Teaching

The department aims to train mathematics educators who are competent in their field holding the requisite pedagogical training, are committed to research, are reflective and self-confident in nature, and who possess the characteristics of global teachers. The undergraduate program which is of four years in duration. In addition to the undergraduate program, the graduate programs of the department have been designed to provide students with sufficient knowledge and skills to be able to conduct research in the field of mathematics, mathematics learning and teaching. Prospective students who wish to enter the master's degree with thesis and phd programs are expected to be graduated from the discipline of mathematics and/or mathematics education, to have teaching experience, and to know a foreign language well enough to carry out research.

#### Education

The department's undergraduate program consists of professional courses and courses related to general cultural subjects and pedagogical training. The program is of four years in duration and it addresses both theoretical and practical aspects of teaching. In addition to the undergraduate program, master's and phd programs are

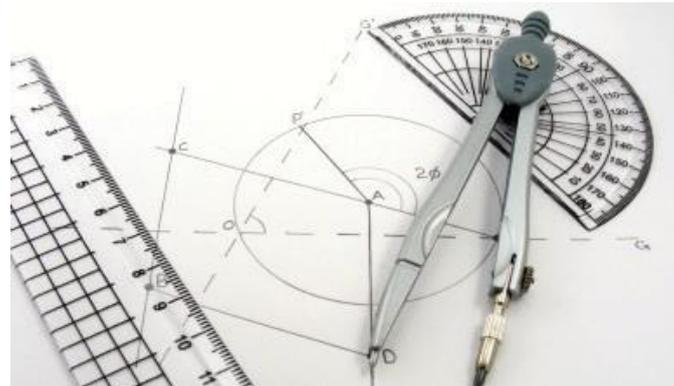

offered by the Institute of Educational Sciences.

#### Facilities

The campus of Atatürk Education Faculty is located on the Anatolian side of Istanbul, one of the most important metropolitan cities in the world. Thus, compared to students of other universities in Turkey, our students have the great advantage of getting much easier access to all kinds of social, cultural, educational and supporting activities. These opportunities enhance our students' cognitive, affective and psycho-motor development. Students who fulfill the prerequisites can participate in a double major program.

#### Employment Prospects

The graduates of the department can work as mathematics teachers at state and private (elementary and) secondary schools tertiary institutions. Furthermore, they have the opportunity to apply for graduate studies in the department of mathematics and mathematics education.
