

## Ultra Violet Disinfection of Water and Wastewater

### Dick van Dijk

Senior Water Consultant

13.11.2012

- ✚ Introduction
- ✚ Basics of UV disinfection
- ✚ Parameters, Limits and Results
- ✚ Various Lamp Technologies
- ✚ Clean Water: Samples of Optimizing Design of Reactors using CFD
- ✚ Examples of Modern Closed Vessel/Pressurized UV Reactors
- ✚ Applications
- ✚ Waste Water Disinfection and Reuse
- ✚ Influence of Treatment Processes on Disinfection Results with UV
- ✚ Design of Early Open Channel UV-Systems
- ✚ Influence of US-EPA Manual on World Wide Regulations for UV Disinfection
- ✚ CFD Modeling of Open Channel Systems
- ✚ Evolution of Open Channel UV-Systems
- ✚ Evolution of Lamp Power Supplies
- ✚ Comparison of Lamp Sleeve Cleaning Methods
- ✚ International Regulations for Discharge of Treated Effluents and Reuse

- ✚ Examples of Classic and Modern Open Channel UV-Systems
- ✚ Other than WW Applications
- ✚ Design Parameters
