

## **Advice for Newcomers: A Twenty TL Day**

Istanbul can be very expensive for students. But it is not impossible to enjoy with little money. Istanbul is very big, and there is a hidden beauty everywhere. You can explore Istanbul's secrets and enjoy your time without spending much money. Let's suppose you have only 20 liras in your pocket. You can really enjoy with this money. Here is my advice:

- 1- You can buy a Bosphorous Straits Tour. Be sure that you will be fascinated!
- 2- You can take a walk along the Moda seaside. It is very peaceful and quiet.
- 3- You can eat a fish sandwich in Eminönü. It's really fresh and delicious.
- 4- You can wander down the Istiklal Street. The street is always crowded and lively.
- 5- You can visit Galata Tower. The panoramic view of the city from the top is breathtaking.
- 6- You can get on a ferry and toss *simit* pieces to seagulls. Watching their rivalry is funny 😊
- 7- You can ride your bicycle on the Caddebostan seaside. It has a wide way.
- 8- You can drink your tea at the Üsküdar seaside, right across from the Maiden's Tower.

**9-** You can visit the Toy Museum. That's a fantastic place full of toys and memories.

**10-** You can go to the Nostalgic Yeşilçam Cinema in Beyoğlu. It's a different option for those who are bored with modern movies.

These are just some suggestions for you, friends. Try them, you won't regret—and you won't go broke either! 😊
